Dear Mr. English,

Thank you for bringing your bicycle in last week. I'm writing to confirm the details of your requested repairs and to outline the next steps in the service process. At Fern & Sons, we take our time with every tune-up, ensuring each adjustment is done carefully and with the same precision passed down through three generations of our family.

During the initial inspection, our mechanics identified a few areas that will benefit from servicing, including brake alignment and minor wheel truing. These adjustments help prevent long-term wear and ensure your riding experience remains smooth and reliable. Once the work is complete, we'll take the bike out for a short road test — a tradition in our workshop to guarantee everything is functioning exactly as it should.

We expect to have your bicycle ready by the end of the week. **You'll receive a notification as soon as your pickup is ready.** If you have any questions in the meantime, feel free to reach out.

Sincerely,

Lucy Letter
